Graduate

### What Do You Wish For The June Bride?

What is your wish to the newlyweds—relatives or friends of yours? Give it to them in your gift—an electrical gift!

#### Is it CHEER?

The cozy glow from an electric floor, table, bridge or boudoir lamp will radiate cheer every evening.

#### Is it CONVENIENCE?

The service of an electric grill, hot-plate, toaster, percolator or other table appliance will save many steps.

#### Is it COMFORT?

The breeze from an electric fan assures cool hours in the kitchen this summer. So an electric heater warms the cool spots in the home in spring and fall.

#### Is it LEISURE HOURS?

The many hours a week saved by an electric clothes washer, ironer, or electric range allow freedom from the drudgery of housework for rest, recreation, and social appointments.

#### Is it HEALTH?

The thoroughness of electric vacuum cleaning, or sanitation of electric refrigeration is a certain safeguard of health.

#### Is it HAPPINESS?

Eddys in the current of marriage happiness are often caused by the bride's fatigue from housework—a bit of which each electrical gift may save her.

There's an Electrical Gift for any Purse  
An electrical gift need not be a costly gift, to furnish a world of pleasure and service. Notice the special gift offerings on display at our local store.

She Will

Look Forward

To Housekeeping

What a delight to the bride-to-be to find among her treasured wedding gifts so many electrical gifts!

Numerous, efficient servants—ready to help her in the kitchen, to save her steps to the table, to wash her clothes, iron them, clean house, and in many other ways to make housework pleasant housekeeping.

The servants she will be given and the servants she will get herself are found in the electric domestic help at our store.

**BRYANT POND**  
The Memorial Day exercises at Bryant Pond were held in the Opera House in the afternoon. Rev. Chester G. Miller of South Paris gave the address which was excellent. The exercises by the schools were excellent. The Band of 18 pieces was in attendance, which was enjoyed by all. There were many people from the surrounding towns here for the exercises. The old soldiers of '91 and the soldiers of the World War, Daughters of Veterans and school children joined in the parade led by the Rumford Band.

**Mrs. Frank P. Cole**  
This community was saddened by the sudden death of Alice, wife of Frank P. Cole, last Thursday morning as she had been sick only two days with bronchial pneumonia. Besides the husband, she is survived by one sister, Miss Clara G. Bryant, who has been sick a long time and was tenderly cared for by her sister, Mrs. Cole, where she made it her home. She is survived by several nephews and nieces. Her funeral was held at the Baptist church at 2 P. M. Sunday afternoon. Rev. Chester G. Miller officiated. The flowers were many and beautiful. Mrs. Cole was a kind neighbor and friend and endeared herself to all who knew her.

**Mr. and Mrs. G. Bertrand Whitman** and two daughters of Portland, N. H. arrived at the home of his father and sister, Elmer Whitman and Mrs. Charles Walker last Wednesday. They went to Rumford, Thursday, and visited his sister, Mrs. Elden Ross. They went home Monday.

**Miss Olive Elliott** of Rumford spent Memorial with her aunt, Mrs. John Hathaway.

**Mr. and Mrs. Walter Small** of Dixfield, Mrs. Emily Felt and Miss Lena Felt of Lewiston, Miss Alice Day and Lewis Day of Portland, Mrs. Maude Winslow and daughter and child of Auburn, Mr. and Mrs. Edward Cole and Mr. and Mrs. Sturges of Mechanic Falls, Edwin Perham of Massachusetts, Clyde Brooks of Auburn, Merle Philbrook of Berlin, N. H., Helen Griffin of Rumford, Gertrude Hodgdon of Portland, Mr. and Mrs. John Titus and granddaughters, Gertrude and Muriel Titus of South Paris were some of the out of town guests in Woodstock for Memorial.

**Mrs. Inez Whitman** is better of the grip. Miss Vera Whitman was sick last week with it and Mrs. Clarence Parham is sick with it now.

**Mr. and Mrs. G. Bertrand Whitman** and two daughters of Portland, N. H. were callers at Elvira Whitman's, Wednesday.

**Mrs. Mary Greeley**, aged 64, widow of Mellen Greeley, died suddenly, Saturday, at the home of her niece, Mrs. Willis Doughty at Yarmouth.

She lived in Paris for some time and later in Oxford. She also lived in Woodstock with her granddaughter, Mrs. Ralph Bacon, until Mrs. Bacon's death. She leaves a son, Rion Greeley, of Gardiner, four granddaughters, Mrs. Ida Humphrey and Miss Bessie Greeley of Portland and Misses Anne and Melva Greeley of Auburn, also a brother, Allen Doughty, of Gardiner. Mrs. Greeley, as she was called by her friends in Woodstock, was loved by all who knew her. She was very active for one of her age and was always busy.

#### NORTH WOODSTOCK

**Mr. and Mrs. W. B. Ordway** of Rumford called on friends here, Friday.

**Mrs. George Abbott** visited her sister, Mrs. John Hemingway, at Norway, Wednesday.

**Herman Cole** and family, Everett Cole and Miss Greenleaf spent Saturday and Sunday in Strong, the guests of Mr. and Mrs. Horace Knight.

Several people from North Woodstock attended the Memorial Day exercises at Bryant Pond, Saturday.

**Mrs. Ernest Smith** was recently given a Sunshine Box which was much appreciated.

**Sunday callers** at George Abbott's were Phon Brown and family, Mr. and Mrs. Albert Abbott and three children of Rumford Point and Mrs. F. H. Whitman of Norway.

**S. L. Ross** and son-in-law, Guy Hemingway, have left the farm and are living at Bryant Pond.

**Mr. and Mrs. John Hemingway** of Norway spent Saturday and Sunday at Cullen Abbott's.

**Mr. and Mrs. F. H. Whitman** of Norway and Edgar Davis and son were Sunday visitors at Arthur Whitman's.

**Mr. and Mrs. James Cook** entertained relatives from Massachusetts over the week end.

**GREENWOOD CENTER**  
Those who attended the Memorial exercises at Bryant Pond, Saturday, were Mr. and Mrs. Daniel Cole and family, Ella Hanson, Mr. and Mrs. Lester Cole and family, Mrs. Ransom Cole and Beryl and Glenn Martin.

**Mr. and Mrs. George W. Willard** and Robert Cole and Mary Martin visited relatives at Gorham, Sunday.

**Lester Cole** has purchased a Chevrolet touring car.

**Week end visitors** at Ross Martin's were Mr. and Mrs. Ernest Martin and family of Norway, Alphonse Cole of West Paris, Mr. and Mrs. Charles Parr and Orville Hanson of Kennebunk, Mr. and Mrs. Herbert Moxey and son, Bert, and Mrs. Herbert Moxey and son, Arthur of West Paris, Mr. and Mrs. Arthur Tracy of Norway and Mr. and Mrs. Lee Hodgkins and family of Portland.

**NORTH NORWAY**  
Mr. and Mrs. Albert Hobbs from Portland and Mrs. Hobbs' mother were week end guests of Mr. and Mrs. George W. Hobbs.

**Mr. and Mrs. Theron Hobbs** and three children from Mechanic Falls were guests of Mr. and Mrs. Ned Cox from Friday until Sunday.

The rain which came Sunday night was very welcome as it was much needed in this section.

**WEST LOVELL**  
Mrs. Clarence Day is caring for Mrs. Orlando Allard, who has been ill in bed.

**Mrs. Z. McAllister** and Mrs. Alice LeLorge accompanied Mr. and Mrs. George Guptill to Bridgton and Fryeburg last Thursday.

**Frances J. Lord** and wife and son Stephen and wife and daughter of Bethford, and son Lawrence and wife of Bethford, were at Mr. Lord's parents', Sunday, to celebrate Mrs. A. R. Lord's 70th birthday which occurred May 30. Mrs. Lord was unable to be home, sent a birthday cake. Morton Lord and wife of Rumford were kept at home by illness in the family.

**Mrs. Fred Stearns** lost forty chickens by weasels one night last week.

**Miss Mildred Goodwin** visited Mrs. Irving Bowley from Tuesday until Saturday night of last week.

TAKE A FEW DROPS  
**BROWN'S RELIEF**  
IN A LITTLE COLD WATER AFTER EACH MEAL  
NORWAY MEDICINE CO.

### POULTRY

COMFORTABLE HOUSE  
ENCOURAGES FOWLS

The poultry house is both the home of the hen and the factory where winter eggs are produced, and unless it provides suitable living and working conditions the hen cannot be expected to lay well. To be comfortable the house must be dry, well ventilated, well lighted and have sufficient floor space to provide exercise by scratching. Dryness is insured by having a good roof, keeping the floor of the house higher than the surrounding ground, and by providing good ventilation. Ventilation must supply plenty of fresh air without drafts. This is secured by having the south side relatively open and the other three sides absolutely tight. The importance of light in the poultry house has not been properly emphasized in the past. Recent experiments with artificial lights show that by furnishing more light so that the working period for the birds is lengthened the egg production can be materially increased. In many farm poultry houses no windows are provided and the house is in constant twilight on cloudy days even when the door is left open. Needless to say, this condition does not favor activity on the part of the hen. To insure good natural light in a poultry house the openings in the walls should equal about one-fourth of the floor space of the house. At least half of these openings should be for open-front ventilation, and the windows should be so arranged that the maximum amount of sunlight will be available to the birds. Wherever possible windows should be placed in the east and west ends of the building so that the early morning and late afternoon light will be secured. To insure room for scratching not only must sufficient floor space be provided but the droppings must be kept off the floor and a deep litter of straw or similar material be supplied so that the birds can be made to scratch for their feed. To keep the droppings off the floor every poultry house should be provided with a droppings platform arranged underneath the roosts to catch the manure.

**Dried Buttermilk Found Profitable for Poultry**

At the Indiana experiment station several tests have also been made with dried buttermilk for laying hens. In one of its bulletins on this subject, A. C. Phillips, who conducted the tests, in which dried buttermilk was compared with liquid buttermilk, says: "The income from the liquid buttermilk-fed pen was \$7.13; from the dried milk-fed pen, \$8.21; and from the no-milk-fed pen, \$2.39." Stating the same facts in different words, Mr. Phillips continues: "The profit over feed cost from the liquid buttermilk-fed pen was \$4.92; from the dried buttermilk-fed pen, \$5.99; and from the no-milk-fed pen, 78 cents."

Thus we see that the pen fed dried buttermilk as a protein carrier, made the largest profit per bird per year.

The pen that received no milk of any kind netted less than \$1 per hen per year. In addition to getting more eggs from the dried buttermilk than from the liquid buttermilk, that institution also obtained greater hatchability in the eggs from the dried buttermilk pen than from the one fed liquid buttermilk.

**Emden Geese Popular**

The Emden breed of geese is one of the best known and most popular of all the varieties. Individuals of this breed are large, and beautiful. The back is fairly straight while the under part of the body is canoe shaped, or, almost crescent. They have blue eyes, orange bill, shanks and toes and pure white plumage. Size and vigor are the principal features to be considered when mating these birds. It is quite common for the females to develop a "dewlap" or loose pouch of skin under the body.

**Poultry Facts**

Keep strong, healthy, vigorous stock and care for it properly.

Know the preferences of your market and strive to meet them.

Never wash eggs unless they are to be used immediately by local trade.

Don't wash dirty eggs. Washed eggs spoil quickly and are of lower market value.

The first essential in marketing quality eggs as required by the new egg law is quality production. When proper methods are employed it is easy to produce and market quality eggs.

Keep the hens off the droppings boards by putting three-fourths-inch wire netting immediately under the roosts.

Watch for cracks and do not have strong drafts in the roosting rooms. If you neglect this, you will have to fight colds and roup later on.

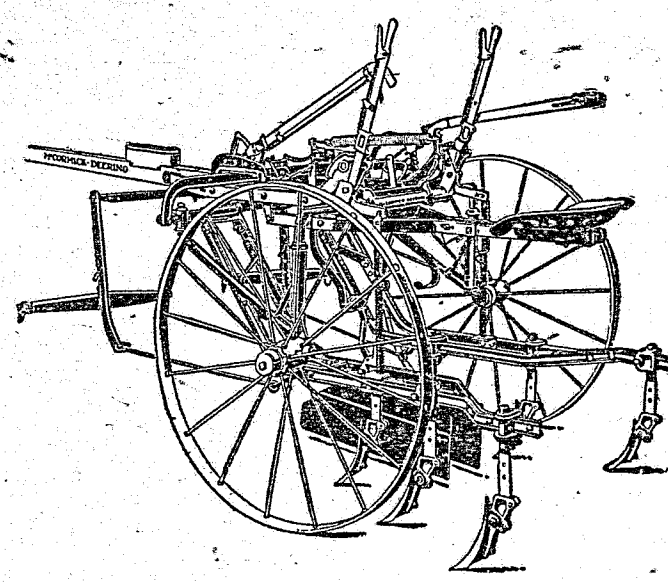

Confine the hens to the poultry house when the runs are muddy until the middle of the afternoon, when most of the eggs have been laid. This will mean fewer dirty eggs.

**POINTED PARAGRAPHS**

The best candidate for office wins—if he gets more votes than the other fellow.

A political demonstration by your party is synonymous with a riot when pulled off under the auspices of the other party.

"Once upon a time" is a familiar beginning for fairy stories, and after a man has been once upon a "time" he begins to tell them to his wife.

### Get the Big Yield!

From the first day those tender corn plants push through the soil into sight, you look anxiously down the corn row and picture in your mind's eye the harvest beyond. What that harvest will be depends much on your cultivator and how you use it. Do you like to use it? Is it easily controlled?

#### McCormick-Deering Cultivators

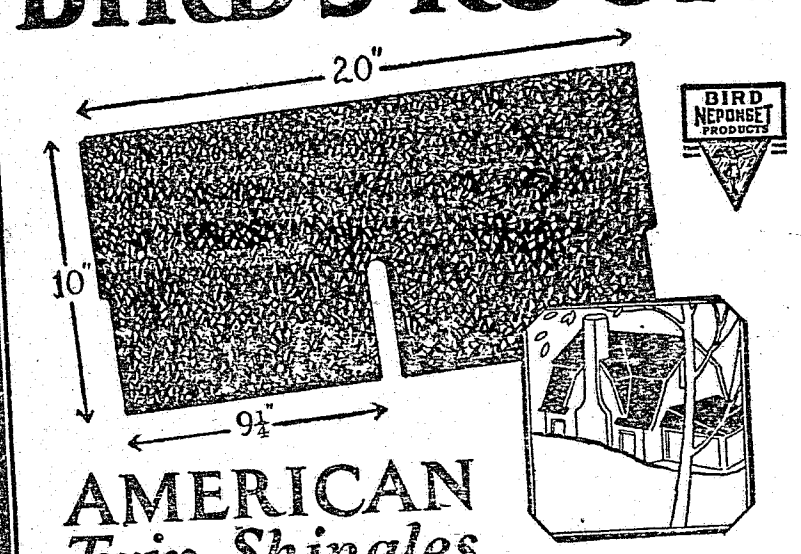

Long ago our McCormick-Deering cultivators went through the experimental stage. As worth-while improvements were discovered they were adopted. Today—wherever you go, you hear them praised for their good work; their easy operation; their convenient adjustments; and the comfort they provide the user.

You should go to the store of the McCormick-Deering dealer and look them over. Samples are set up there for you. Climb into the seats, shift the pedals, handle the levers. Then let the dealer quote you the low prices. You will quickly agree that these popular cultivators give real value for the money, and these are days when real value counts big.

### BIRD'S ROOFS

#### AMERICAN Twin Shingles

Bird's American Twin Shingles, the only twin shingles of 10" depth, weigh about 200 lbs. to the square.

1. Are two-in-one-shingles that cover twice the area of ordinary shingles—save labor and nails.

2. Have the distinctive, arched cut-out which prevents tearing and enhances the appearance of the roof.

3. Have a smooth surface of natural red, green or blue-black crushed slate.

4. They are one-man, one-hand shingles—packed in easy-to-handle bundles.

American Twin Shingles are made by Bird & Son, Inc. (Est. 1795), manufacturers of Neponset Twin Shingles, Bird's Shingle Design Roll Roofing, Peroid Roofing, Neponset Black Building Paper and Neponset Board. There's a Bird product for every sort of building!

We are headquarters for Bird's roofings, building papers and wall board

## THE NORWAY ADVERTISER

Entered at the Norway Post Office as Second Class Mail Matter.

Subscription rates \$1.50 in advance. Single copies 5 cents each at local news dealers. Rights, marriages and death notices free. All notices of marriages and deaths must be printed in this office to receive our reading notice free. Notices of church and social events are charged, unless otherwise stated. The price of advertising space is 10 cents per line per week. As a general rule, the price of advertising space is 10 cents per line per week. As a general rule, the price of advertising space is 10 cents per line per week.

**COMES UNDER PAID MATTER**

A charge is made for publishing cards of thanks, resolutions of respect, obituary notices, and for obtaining which we are not allowed to edit. The price varies according to space used, but none published for less than \$1.00.

**Coming Events**

June 5—Annual sale, supper, entertainment, Community Hall.

June 6—H. S. Janice Drama, Norway Opera House.

**PORTER**

The Free Will Baptist quarterly meeting was well attended, Sunday. The next quarterly meeting will be held at Hollis in August.

Mr. and Mrs. Walter Steward of Conway, N. H., were guests, Friday night at C. A. Roberts'. Saturday night Mr. and Mrs. George Gammon, Rev. Cotton, Ethel Cotton, Harry Cotton and daughter were there.

Rev. Fred Ward of Baldwin was a Saturday night guest at Milton Varney's. Mr. and Mrs. Ernest Roberts, Mr. and Mrs. C. A. Roberts, Mr. and Mrs. W. N. Dargun, Mr. Gerald Dargun, Mrs. Lizzie Burnell, Mr. and Mrs. Guy Fox and Jesse Libby all attended the sermon at the Advent Chapel, Sunday night.

Mr. and Mrs. Alvin Gram and two daughters, Eva and Grace, Mr. and Mrs. Howard Littlefield, Mr. and Mrs. Earl Chamberlain and Freeman Chamberlain all of Brunswick were in this place, Sunday, and attended the quarterly meeting.

Mrs. Thompson is visiting relatives in New Hampshire this week.

Alma Deaton Newfield spent the week end with her father, Thos. Libby.

## CAT-CROP RANKS THIRD

The Department of Agriculture has prepared a printed bulletin saying:

"The cat crop ranks third in importance. Cats traditionally constitute the banner household pet and 3 per cent. is used for human consumption. The cat crop is subject to several diseases, chief of which are loose and covered, smart, stem rust and crown rust."

The following is a discourse on wildcats, tame cats, broken cats and wild cats. The main varieties of the United States are given as Scotch, Select, Silver Nines and White Tartan.

The trouble was that the linotype operator consistently hit the letter "C" and had turned a treatise on cats into one on cats.

The bulletin will not be disturbed.

## MARRIAGES

In West Paris, June 1, by Rev. E. H. Storer, Arthur Buck and Lula M. Herrick.

## BIRTHS

In Norway, June 3, to the wife of Joseph F. Lattin, a son, Oliver.

In North Berwick, June 23, to the wife of Everett Darling, a daughter.

In West Paris, May 28, to the wife of Dr. R. M. Tait, a daughter.

In Oxford, May 20, to the wife of Frank Herrick, a son, Henry Guy.

In South Paris, May 22, to the wife of Alton A. Andrews, a son, Carroll Willis.

In Wilson's Mills, May 22, to the wife of Alfred Hart, Jr., a daughter.

In Norway, May 27, to the wife of Arthur W. Hill of Gray, a daughter, Alice Mae.

## DEATHS

In Bethel, May 27, Miss Elberta Burnham, aged 67 years.

In Fryeburg, May 24, Mrs. Ann Wiley Osgood Shirley, aged 82 years, 1 month and 26 days.

In Lewiston, May 29, Mrs. Grace Eastman Stevens of East Haven, aged 54 years.

In Milton, May 30, Mrs. Sarah Buck, aged 79 years.

In Penobscot, May 27, Marion, daughter of Roy Bowden of Bangor, aged 15 years.

In Bryant's Pond, May 28, Mrs. Alice, wife of Frank F. Cole, aged about 55 years.

In Brookline, Mass., May 28, Orange G. Pratt, formerly of South Paris, aged 72 years.

In Lewiston, May 25, Mrs. Carolyn, wife of Benjamin E. Gerrish of Buckfield, aged 57 years.

In Norway, May 29, Roswell Frost, aged 84 years.

In Yarmouth, May 30, Mrs. Mary Greely, formerly of Paris and Oxford, aged 84 years.

In Sumner, May 29, Mrs. Estelle S. Foster, aged 88 years.

In South Paris, May 30, Edward F. Bassett, aged 78 years.

In Norway, June 3, Mrs. Henrietta, widow of Frank G. Hobbs, aged 57 years, 4 months 1 day.

## CARD OF THANKS

We wish to thank our friends for their kindness during our recent bereavement and also for the many floral tributes.

MR. AND MRS. LEON YORK.

MISS LENA YORK.

South Waterford, Me., June 5, 1925.

## CARD OF THANKS

We desire to express our sincere thanks to our neighbors and friends for their many expressions of sympathy during our bereavement caused by the death of our beloved daughter, Barbara.

MR. AND MRS. JOHN PATON.

Bryant Pond, Me.

## CARD OF THANKS

The members of the family of the late Mrs. Anna W. Shirley take this opportunity to extend sincere thanks to all who in any way assisted during our late bereavement and for the beautiful floral tributes.

HEBE STEPHENSON, NIEBES, AND NIEBES.

Fryeburg, Maine.

## RESOLUTIONS OF RESPECT

Whereas, The Honorable Mrs. Anna W. Shirley entered our midst and caused our circle to be broken by her death of our worthy brother, John Lindsay Chandler.

Resolved: That Julia Rebekah Lodge No. 12 of Fryeburg, Centre extend their deepest sympathy to the family and relatives of our brother.

One by one earth's ties are broken As we see our loved one die.

And the hopes so fondly cherished Brighten but to pass away.

One by one our hopes grow brighter As we near the shining shore.

For we know across the river Wait the loved ones come before.

Resolved: That a copy of these Resolutions be sent to the wife and children, also be spread upon our records, and one sent to the Norway Advertiser for publication and that our Charter be draped in mourning for one year.

JENNIE M. HURD.

GRACE E. STANLEY.

Committee on Resolutions.

May 31st, 1925.

## ANNUAL MEETING

The Annual Meeting of the members of the Oxford County Loan and Building Association will be held at the office of Walter L. Gray, South Paris, on June 9, 1925, at 10 o'clock in the evening, for the purpose of hearing the report of the Executive and Treasurer, electing all necessary officers for the ensuing year, and the transaction of any business which may properly come before the Annual Meeting. All stockholders are entitled to vote.

WALTER L. GRAY, Sec.

Dated May 18, 1925.

## Clyde, the Clown

By ROSCOE G. SCOTT

(© 1925, Western Newspaper Union.)

EVERY town has a Clyde Davis. He saw fit in his grand plan for this world to send down to each community somebody to make other people laugh. Everything Clyde Davis did was funny—at least to us, who spent our rather listless days in Middletown, Ind. When he came after his mail the post office always rang with a good shout of old fashioned merriment. Our church socials went flat if Clyde happened to be away in Indianapolis seeing a show. He won more baseball games for our school team than all the members of the nine.

In our amateur theatricals he shone best. Our home newspaper would merely have to say:

The play given next Tuesday evening at the Opera House has a talented cast, the chief comedy role falling into the capable hands of our true humorist, Clyde Davis.

That was the trouble with Mildred Walker. She took Clyde's love making as a joke. Not that she didn't care. She did. Mildred Walker would tingle under the quaint bits of love making, but when he went to town—humorist—until she saw his face and then she would break from his arms with laughter—saying his face looked so much like Buster Keaton's.

A year before, Millie graduated from the local high school. Clyde had been out of school three years and was trying with friendly overtures to build up a dejected little garage business taken over from a slipshod uncle. He had the promise of a good automobile agency when he got on his feet and he would have been standing there erect months ago, had he had Mildred. But she poohed such an extravagant compliment.

Then to make matters far worse, two things came along. The first was a catastrophe—Millie Walker inherited a small house, three thousand dollars from her Grandfather Walker. The second was the advent of a dramatic coach, who hailed from Boston and coached plays for a living, after an alleged successful fling in metropolitan vaudeville. The whole thing looked like the makings of the old fashioned melodrama with Clyde Davis the dejected hero, Millie, the pure hearted heroine, and DeVoss Langdon—the villain.

Langdon looked knowingly of "back stage acting" and "hogging the spotlight" and very early he branded Clyde a "ham comedian"—but he retained him in the cast, for there was none other to be found.

One hesitates to jump to conclusions, but at the local hotel several of us booby unwisely told this Langdon of Mildred's fortune, by way of getting reflected glory for ourselves.

The night of the play I saw Clyde take Millie to the darkest corner of the theater and I saw her run away from him. I knew the jig was up between the two. Clyde muffed every chance at a laugh that night and was funny only because he was so miserable and acted so rottenly.

She came to him afterward, I think she felt guilty maybe. He told us that DeVoss was leaving after business arrangements the next night and Millie was going away with him. He confided in me the whole story. Millie had told him that her folks were set on Clyde and thought her love for him was an infatuation. "But go on, Be," he said to me tragically, "it's the real stuff." He told me how he had offered his clowning to help her get away, for the Walker home is less than fifty yards from our little depot and facing away from the tracks onto the Main street.

On the evening of the fourth day we sighted salt water and prepared to head into the open sea. When twilight fell we were perhaps four miles from land. A moderately heavy swell was running, and the captain himself was on the bridge taking a last look about, before going below to his dinner.

"How that African elephant broke loose I can't tell. Men who saw him through the twilight told conflicting tales. One of the lascars dechanded said he grew twice his natural size and that his red eyes shot green flames one to five feet from his head."

"But we all knew that he was free of his bubble and shouting, about which his wild trumpeting rose thunderously and triumphantly."

"Wood, canvas, chains, ropes, all were rent and pushed aside. Out into the main deck charged the giant brute. His distended ears stood out stiff from his head like huge sea shells. His eyes glowed with a savage mad. Against the wooden rail he plunged. It gave way. He plunged overboard in a monstrous, splashing dive. Up he came. Then he set out swimming. Straight toward the distant shore he went. A long time afterward we saw him in the moonlight through our glasses climb up the sandy beach and stride back again into his jungle home."

Rev. Dr. B., who had been invited to preach in a country church one Sunday, was annoyed to find the room so dark that his eyes could hardly penetrate the gloom. Beckoning to one of the deacons he asked him to open the blinds and let in more light.

"We expect light from you," the deacon remarked facetiously.

"But I must get it from heaven first," was the quick rejoinder.

## A Hero

Belle-Maud says that the man she marries must be a hero of the gridiron.

Bess—He will be; if there's any cooking done he'll have to do it.—Boston Transcript.

## Too Much Attention

"Very attentive husband."

"Excessively. Well, the honeymoon is young yet. If the bride while seeing said she had dropped a stitch he'd paw the floor over."—Louisville Courier-Journal.

## Official Terms Vary

Presidential terms in the various republics are as follows: Argentina, six years; Bolivia, four years, not eligible for re-election; Brazil, four years, not eligible for re-election; Chile, four years, not eligible for re-election; China, five years, president may be re-elected; Colombia, four years, not eligible for re-election; Costa Rica, four years; Ecuador, four years; Finland, six years; France, seven years; Germany, seven years; Latvia, three years, no person can hold office more than six consecutive years; Liberia, four years.

## Poet's Odd Experience

There is an instance, recorded some time ago, of the late poet James Whitcomb Riley's experience, when some strange impulse drew him out of bed and prompted him to write his poem "Bereaved," the simple story of the death of a little child. At the time, Riley had no knowledge that the child of any one in whom he was interested was even seriously ill. He could not imagine why this haunting thought should have come to him. But in his mail a few days later came a letter from his old friend Bill Nye, announcing the death of one of his children on the very night that the strange

thought had come to the poet.

## Widespread Belief in Horseshoe as Talisman

The horseshoe is one of the very oldest talismans for woe good fortune that exists. The belief in its efficacy is held almost all over the world, and has been passed down the dawn of history. You find it in Egypt and nailed to the threshold of the feld and wicker wigwams of the nomads of Turkestan.

In medieval England, especially in the southwest, horseshoes were often nailed on church doors to keep out evil spirits and witches. There used to be two huge-ones on the south door of the parish church of Ashby-Foville, in Leicestershire, says the Family Herald.

There are records of a number of horseshoes having been nailed up for centuries on the gates of Oakham castle, in Rutland, which was built by Walelin de Ferrars, son of the first earl. Every nobleman visiting it was made to forfeit a shoe of the horse on which he rode on payment of money. Quite a number endured the inconvenience of parting with a shoe rather than pay the small sum.

Probably the oldest continuous display of a horseshoe for luck to be found in Britain is the case of a shoe nailed up at Horseshoe corner, in the city of Lancaster. The first one was cast by the horse of John of Gaunt, when he was riding through the streets nearly six hundred years ago.

The more nails in a "found" horseshoe the greater the luck.

## Wild Well Aware of Failing of Humanity

Among other amusing stories in his "Memoirs and Adventures," Sir Arthur Conan Doyle tells a characteristic story told him by Oscar Wilde.

"We were discussing the cynical maxim that the good fortune of our friends made us discontented. 'The devil,' said Wilde, 'was once crossing the Libyan desert, and he came upon a spot where a number of small flocks were tormenting a holy hermit. The sainted man easily shook off their evil suggestions. The devil watched their failure and then he stepped forward to give them a lesson. 'What you do is to be a saint,' said he. 'Permit me for one moment to be a saint. I have heard to the holy man, 'Your brother has just begun made bishop of Alexandria.' A scowl of malignant jealousy at once clouded the serene face of the hermit. 'That,' said the devil to his lips, 'is the sort of thing which I should recommend.'"

## Must Not Be Separated

Faraday, the great chemist, learned a lesson in boyhood by a very childish experience. As a little lad, humbly earning his bread selling newspapers in the streets, he was walking outside the morning house, and thrust his head and arms through the railings of the iron gate. He was a born metaphysician and began to speculate on which side of the railings he was. "My head and hands are on one side," he said to himself, "and my heart and body are on the other. If I am separated, I shall be lost. I must not be separated."

Do Good Work in World Those to whom a calling appears to be extraordinary are rare, but they are precious, since they, and they alone, have built up our minds. They are the creators of human intelligence, the wide-eyed individuals who point out to the masses of mankind what has been accepted as a matter of routine. They are the poets, religious leaders, story tellers, philosophers, theologians, artists, scientists, inventors. Commonly unnoticed things excite a strange and compelling curiosity in them, and each new question sets them on a fresh quest. They see where others are blind, hear where others are deaf. They form the noble band of wonderers.—James Harvey Robinson.

## Franking Privilege

The privilege of sending and receiving mail free of postage was once enjoyed by the President of the United States, vice president, heads of departments, senators and representatives, and other officials of the government during their official terms. For a time all former presidents and their widows of former presidents also had this right, but by an act of 1873 the privilege was abolished. By later acts it was conferred on all officers of the government in the case of official correspondence. In 1895 members of congress were allowed this privilege in their official correspondence.

## Alone in His Progress

"Tell me," said the interviewer at the fall of the aviator who had fallen three thousand feet and hit the earth, "what was your dominating thought as you fell through all that space?"

True to his record for coolness, the aviator lit a cigarette, smiled and said: "Why, I think the thought that impressed me most was that I was about the only thing that wasn't going up."

## Making His Peace

Hubert, who had been sent to bed for being naughty, could get to sleep. At 10 o'clock he crept down stairs and said to his startled mother: "Didn't you say I was not to go to sleep until I had made my peace with my enemies, mummy?"

"Yes, dear," was the reply.

"Well, I've come down to forgive you and dad."

## Clerical Repast

Rev. Dr. B., who had been invited to preach in a country church one Sunday, was annoyed to find the room so dark that his eyes could hardly penetrate the gloom. Beckoning to one of the deacons he asked him to open the blinds and let in more light.

"We expect light from you," the deacon remarked facetiously.

"But I must get it from heaven first," was the quick rejoinder.

## Mohammedan Legend

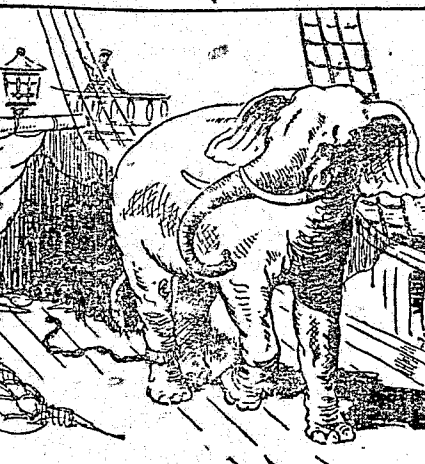

The al bora was a marvelous animal of surpassing swiftness on which Mohammed is said to have made a nocturnal journey from the temple at Mecca to Jerusalem and thence to the seventh heaven, under the guidance of the angel Gabriel. Its eyes were like stars, and its body was resplendent with precious stones. It had the wings of an eagle, and a human face with the cheeks of a horse. According to Mohammedan faith, the al bora is one of the few animals admitted to heaven.

## "OLD-SALT" TALES

By CAPTAIN IRA PERKINS

(Copyright.)

Elephants Abaft

WITH one strong push of his thumb the captain tamped down the tobacco in the bowl of his story brlar pipe. He struck a match. There was silence among his boy admirers until the pipe was under full seaway and drawing properly.

"Most of you boys saw the elephants in the circus yesterday," the captain meditated a moment. "But, boys, there is as much difference between these Indian elephants which the circus owns and a real, live, stampeding, battling African elephant as there is between your grandpa's pussy cat and a live, spittin', wildwoods bobcat."

"There isn't an African elephant in captivity today. That shows you what sort of fighters they are."

"Of course, now and then, one of them has been trapped. Several times men have brought them out from the jungles alive. There was one like that."

"We had been up the Congo river on the African west coast. Our ship was an old three-masted schooner. She had belonged to a man who liked fancy trimmings, and her decks and cabin were adorned with carved woodwork, which may have added to her good looks, but did not add to her ease of handling or safety in a heavy sea."

"We were tramping it. Our captain and owner was one of those who think that it's better to take long risks and win big money than to go in for a safe thing which only stands to show a small profit."

"Ivory was our present aim, but there was little of it to be shipped that year. Therefore it was no more than a matter of time before the captain should jump at the chance of some big money to be made by taking a boatload of animals across to the States. The offer looked good to him. The animals were finally got aboard and we were on our way."

"You would have laughed and cried both if you could have seen that cargo. There was a funny little zebra, who brayed about twenty-two hours out of the twenty-four, and who tried diligently to kick the door of his stable off its hinges. Then there was a sick giraffe which tottered to and fro on its ridiculous long legs and looked at you with great brown eyes till you wanted to grab him 'round the neck and tell him to perk up and every thing would be all right. There were these, and a lot of others—including a real African jungle elephant."

"The captain was a caution. He wouldn't eat. He wouldn't sleep. Even though he was loaded down with weights and trussed up with heavy iron chains, not a man of the native crew would go near him. His eyes were red, and his trunk and tail—which were about the only parts of his body not tied fast—were always swishing angrily back and forth."

"For three days we sailed down the river. On the evening of the fourth day we sighted salt water and prepared to head into the open sea. When twilight fell we were perhaps four miles from land. A moderately heavy swell was running, and the captain himself was on the bridge taking a last look about, before going below to his dinner."

"How that African elephant broke loose I can't tell. Men who saw him through the twilight told conflicting tales. One of the lascars dechanded said he grew twice his natural size and that his red eyes shot green flames one to five feet from his head."

"But we all knew that he was free of his bubble and shouting, about which his wild trumpeting rose thunderously and triumphantly."

"Wood, canvas, chains, ropes, all were rent and pushed aside. Out into the main deck charged the giant brute. His distended ears stood out stiff from his head like huge sea shells. His eyes glowed with a savage mad. Against the wooden rail he plunged. It gave way. He plunged overboard in a monstrous, splashing dive. Up he came. Then he set out swimming. Straight toward the distant shore he went. A long time afterward we saw him in the moonlight through our glasses climb up the sandy beach and stride back again into his jungle home."

## Twelfth Night Customs

Kept Up in England

Many strange and curious rites and customs have long been connected with the observance of Twelfth night. The night is the evening before Epiphany, or the 6th of January, also called Twelfthday and Old Christmas day.

In England the principal rite of the evening is the cutting of the "bean cake"—a cake in which a bean is cooked, the finder of which is made the king of the night and the following day.

It was in commemoration of this custom that Robert Baddely, an English comedian of the Eighteenth century, who was long a favorite at the Drury Lane theater, made one of the strangest requests on record.

Baddely died in 1704, and in his will he bequeathed his cottage to a theatrical fund, requesting that a sum of three pounds be annually expended on a cake, to be cut on Twelfth night, in the Green room of the Drury Lane theater, and divided among the actors and actresses.

## Mohammedan Legend

## BRIDGTON

Fitting Observance

Memorial Day was fittingly observed in Bridgton. The day's program began with a dinner at the Grand Army Hall, served by the Relief Corps for those who world, and has been passed down the dawn of history. You find it in Egypt and nailed to the threshold of the feld and wicker wigwams of the nomads of Turkestan.

The parade then formed, with Marshall Oscar T. Frank in the lead and the order as follows: Edward Lopenam Post American Legion, led by Commander Eddie Sanborn; Sons of Veterans, led by Commander Frank A. Webb; Grand Army; Relief Corps; and Sons of Veterans Auxiliary. The parade marched to the town hall where an address was given by Robert Whitcomb of Portland, a prominent member of the Relief Corps. Several patriotic songs were played by the band here. From here they proceeded to the High Street cemetery where the graves of comrades were decorated, but further services were called off because of the heavy showers.

Annual Conference Closed

Sunday evening closed the annual Spring Convention of the Maine State Advent Christian Conference which was held at the local Advent Church beginning Thursday morning and which was well attended by delegates from the various churches in the conference, visitors and townspeople.

Prominent speakers on the program were Rev. H. H. Henshaw of Boston; Rev. Clarke Derval of Goodwin's Mills; Rev. Retha Glover of Oxford; Rev. J. A. Nichols of Bangor, a former pastor here; Rev. E. A. Goodwin of Kennebec, a former pastor here; Rev. G. L. Young of Newburyport, Mass.; Rev. S. M. Wales of Mechanic Falls; Rev. C. O. Farnham of Somerville, Mass.; Rev. F. J. Coolidge of Portland, Me.; and Rev. J. E. Banks of Auburn; Rev. John Holman of Kezar Falls; Rev. Henry Coolbroth of Kennebec; Rev. Curtis Stanley of South Hiram.

Following the evening service, Sunday, there was an ordination service in which J. S. Lonsbury of East Rochester, N. H., a former resident of Bridgton, was ordained to the ministry. The ordination sermon was preached by Rev. Howard A. Mitchell, pastor of the local Advent Church.

At the Methodist church, Sunday evening, there was an illustrated lecture on "The Puritans in the Old World" and Monday evening on "The Puritans in the New World." These lectures were first given by Dwight Hillis at Brooklyn, N. Y., and were read here by Rev. Ernest F. Doughty, pastor of the church.

Mrs. Mabel Perkins gave a party to the young ladies who served as models in her recent Fashion Show, and their gentlemen friends at Camp Good-Enough on Highland Lake where she is stopping at present. About 25 guests were present and a very delightful evening was spent with games and dancing. Special features of the dancing were a forfeit fox trot and a lemon drop waltz. Delicious refreshments were served. Mrs. Perkins was assisted in entertaining by Mr. and Mrs. Racburn Riley.

The June supper and business meeting of the B. & P. W. Club was held, Tuesday evening, at Moose Hall with a good number in attendance. Supper was served at 6:30 by Mrs. Edith Cameron

## THE MERCHANT STORE

Dry Goods and Apparel for Women,  
Misses and Children

## The Ready-to-Wear Department

ALL SUMMER COATS FOR WOMEN,  
MISSSES AND CHILDREN AT A  
LESS PRICE

If you have not yet bought your summer coat now is a good time to buy making a saving to you of \$3.00, \$5.00, \$7.00 \$10.00 and up to \$15.00 on a garment according to the regular fair price.

## Solution to Last Week's Puzzle

## Correct Answers

1. Mrs. Walter O. Smith, Norway.  
2. Mrs. N. A. Stearns, Bethel.  
3. Miss Corie M. B. Denham, Denmark.  
4. Gertrude L. Barrows, Orlinfield.  
5. Miss Jennie Kimball, Orlinfield.  
6. Mrs. John P. Hall, South Paris.  
7. Mrs. Helen L. Briggs, Boston, Adams.  
8. Mrs. Harold Farrington, East Stoneham.  
9. Miss Violet M. McAllister, East Stoneham.  
10. Mrs. N. Green, Norway.  
11. Marion B. Hodson, Bryant Pond.  
12. John H. Randle, Harrison.  
13. Eleanor Harmon, Harrison.

## Answers With Errors

1. Plan for plot; gains for gait; chare for char.

## OXFORD

Memorial Day exercises at Oxford were carried out successfully at Oxford.

The parade was the largest for many years. Besides the soldiers of the Civil, Spanish and World Wars, there were 118 representatives from the schools. Dinner was served by the ladies of the Relief Corps and Auxiliary. The 103rd Infantry Band of Lexington furnished music for the day. Dr. E. B. Holden gave a patriotic address at the school yard in the afternoon followed by a band concert.

Among the Memorial Day and week end visitors in Oxford were Miss Charlotte Walker, Miss Millicent Walker, Mrs. Nina Stone, Leander Wardwell, Mr. and Mrs. Geo. Seiders, Mr. and Mrs. Fred Gammon, Mr. and Mrs. C. W. Kavanagh, Leland Stone, all of Portland, Leon Crockett, Kittery, Miss Bessie Newport, Berlin, Forrest Thimae, Auburn, Dr. and Mrs. E. F. Bradbury, Mr. and Mrs. James N. F. Norway, Mr. and Mrs. George Andrews, Augusta, Mr. and Mrs. Carl Green, Waterville.

Chas. Hanscom, Geo. Jones, Perley French, Harry Fuller went on a fishing trip this week to Mason, returning with a fine string of brook trout.

Mrs. Carrie Bumpus of Rehding, Mass. is in town. She will spend a few weeks with friends and relatives.

Mr. and Mrs. C. G. Curtis, Mr. and Mrs. Thomas Coulton left Monday for a trip to Washington, D. C.

## Parent-Teachers Meeting

The Parent-Teacher Association held a meeting at the school house Monday evening.

Newly elected officers are: Pres.—Mrs. Nellie Hayes.

Treas.—Miss Louie Roderick.

Dr. E. B. Holden gave a talk on teaching English followed by a discussion by

Supt. Edminister, Agnes Benson, Lena Perkins, Nadine Hoar, Vera Paine. Prin. Saunders spoke on "School Character."

The grade schools each had very interesting exhibits.

Refreshments of ice cream and fancy cookies were served.

The Leandaham Club met Tuesday evening, at the home of Mrs. Maude Farris. Election of officers will occur at the next meeting, June 15. This will be the last meeting for the season.

## SOUTH WOODSTOCK

Maurice Cummings of Massachusetts is at the Daniel Churchill place which he recently bought, doing some spring work.

Justus Miletch has finished work for R. L. Cummings and returned to Norway.

Mr. and Mrs. F. R. Andrews, Mr. and Mrs. F. E. Davis, Olive Pingree and Elsie Davis from this place attended Potomac Grange at Bolster's Mills, Tuesday.

Elsie Wilson is at home from her school at Lancaster, Mass.

Leewood Verrill is working in Cummings' garage at West Paris.

Alfred Hodge of Canton is working on the State road and rooming at Harry Crockett's.

R. L. Cummings has moved to his rent over his garage.

Earl Felt of Norway spent the week end with his mother, Mrs. Clara Felt.

Bill Bray has leased the repairing rooms at R. L. Cummings' garage.

Ernest Crocker was hurt last week while cranking his car and has been laid up since with three broken ribs and an injured back.

Eva Jackson of Portland spent Memorial Day at home.

Mrs. Gene Swan of Portland spent Saturday and Sunday with her sister, Mrs. Frank Davis.

Rena Farrington spent Monday night at home and attended the school entertainment. Helen Andrews accompanied her. They returned to their school at Bryant Pond, Tuesday morning.

Mr. and Mrs. G. W. Q. Perham and Mrs. Ella Dudley went to Saugus, Mass. Tuesday, for a week's visit with Mr. and Mrs. Gilbert Woods.

## Union School

The Union School gave an entertainment Monday night, which was very good and showed hard work by both teacher and scholars. The program was as follows:

Song, How Do You Do.....School

Play, Scenes of World War.....10

Number March, A Kindly Light.....3 girls

Antoinette, Death of George Washington.....6 girls

Dialogue, Social.....3 girls

What I Can Do.....3 girls

Dialogue, Social.....3 girls

Shoe Makers Dance.....3 girls

Bingen on the Rhine.....3 girls

The Minister's Mistake, dialogue.....3 girls

Good Night Song.....3 girls

Ice cream and home made candy were on sale. About \$16.00 was taken.

## NORWAY LAKE

Mrs. Eunice Watson has gone to Massachusetts to visit relatives.

Percy Proctor had the misfortune to lose his cow one day this week.

Shirley McKay of Boston was a guest at Will Tucker's, Memorial Day.

Mr. and Mrs. Henry Healy and children, Frances and Mary, motored to Portland, Saturday. Mrs. Mary Healy returned with them.

Alma Bancroft spent the week end at her home in Waterville.

Little Esther Kilgore has been sick at the home of her grandmother.

John Gorish and Jimmy Luce from Massachusetts were visitors at Mrs. Webster Kilgore's over the holiday.

An enjoyable evening was spent at Mr. and Mrs. Fred Lea's, Tuesday night when a group of young people got together for a good time. Games were played and there was music during the evening.

A June Box was hung for Miss Gladys Smith.

Mr. and Mrs. Webster Kilgore, Gladys Smith, Doris Kilgore and Walter Cummings motored to Bethel, Sunday, to visit friends.

An auction will be held at the store of W. W. Fillebrown, Waterville, Saturday, June 13 beginning at 9 o'clock. D. M. Stuart, auctioneer. See ad. in another column of this paper.

Perennial War Begins To Rout  
Mosquitoes and Other Pests

"The time to fight mosquitoes and flies is when they are in the egg or larva stage, not after they have matured. An ounce of prevention will do the work of many fly traps and mosquito bars," declares Dr. J. Allen Patton, of New-Ark, N. J.

"Preventive work in the spring will wipe out the breeding places," says Dr. Patton, who is the medical director of the Prudential Insurance Company, and will, to a large extent, eliminate these menaces to the public health.

The house fly feeds and breeds on every kind of filth, and is a remarkably efficient carrier of disease. It specializes in typhoid, dysentery, Asiatic cholera, and other diseases, including tuberculosis. Swatting the fly is an acceptable means of annihilating the full grown pest, but not so effective in the end as preventive measures. For it is much easier to clear away the potential breeding place for a million flies than it is to swat or catch that million after they have grown to a lively maturity.

Filling in and draining are the two most effective means of eliminating mosquito hatching. Where these are not practicable the periodic use of coal oil to form a film on the surface of the water is advisable.

Community effort is necessary in any campaign against the house fly or mosquito. It is not sufficient that your own stable and garbage yard are not fly incubators, and that you have no stagnant water in your yard to hatch mosquitoes. Your neighbors also must see that their yards are in condition, else your own efforts will have been wasted and they will share with you your mosquitoes and flies.

Community effort is necessary in any campaign against the house fly or mosquito. It is not sufficient that your own stable and garbage yard are not fly incubators, and that you have no stagnant water in your yard to hatch mosquitoes. Your neighbors also must see that their yards are in condition, else your own efforts will have been wasted and they will share with you your mosquitoes and flies.

# Bohn Refrigerators

are all white porcelain Bohn Syphon Refrigerator, all metal refrigerator incorporating the famous Bohn Syphon system of low temperature and rapidly circulating dry air. Heavily insulated with flaxlinum.

Safeguarding the food you eat is as important to your health as sanitary plumbing. A cheap refrigerator is often dangerous. The Bohn Syphon System is the acme of refrigeration attested to by all railroads and Pullman dining cars. One of the best ice keepers on the market.

# Eddy Refrigerators

You will observe that the doors are raised an inch or more above the inside floors. Thus the cold air sinking to the bottom does not escape when the doors are opened. They are double covered, that is, they are insulated like the walls, thereby preventing the escape of any coldness through them. Moisture from the melting ice has no effect on the contents of the food chambers of the Eddy. They are moisture proof. The Eddy System insures a continuous circulation of cold, dry air through the food chambers. Dampness is the first cause of decay and mould. Dry air is as requisite in a refrigerator as cold air.

Come in and purchase a Bohn or Eddy Refrigerator and keep your food sanitary.

## Hall's Catarrh Medicine

will do what we claim for it—rid your system of Catarrh or Deafness caused by Catarrh.

Sold by druggists for over 40 years

**MRS. FULLER MADE STRONG**

Lydia E. Pinkham's Vegetable Compound Helped where Other Medicines Failed

Walpole, N. H.—"I have used Lydia E. Pinkham's Vegetable Compound and find it has improved my health wonderfully. For months and months I was not regular and had terrible pains. They used to affect my side so I could not work. I read of others being helped by the Vegetable Compound, so I thought I might help me. I am very much better now, strong enough to do my own housework, and have two dear babies to care for besides. I tried other medicines before taking the Vegetable Compound, but I was never treated for my troubles. I speak highly of the Vegetable Compound to my friends and recommend it to any woman for run-down and nervous condition."—Mrs. T. H. Fuller, Walpole, New Hampshire.

Over 200,000 women have so far replied to our question, "Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?" 98 out of every 100 of the replies say, "Yes" and because the Vegetable Compound has been helping other women it should help you. For sale by druggists everywhere.

**S & H ICE CREAM**

at its best when you use S & H Vanilla Ice Cream. For what delicious cream this is. Made with pure vanilla beans and other rich, selected ingredients, it has a satisfying goodness you'll not find in any other kind. There are S & H flavors for every taste—fruit, nut, custards. There is health in every saucerful.

Buy your ice cream at the S & H sign—bricks, bulk or cones. Simmons & Hammond Mfg. Co., Auburn, Maine

## ALMA PENDEXTER HAYDEN WRITES MORE ABOUT HER FORMER PUPILS IN NORWAY HIGH

I was pleased to meet with an esteemed pupil, Mrs. Grace Fauce Leavitt, while she was in Norway a few years ago. We took our Thanksgiving dinner together at Boals Tavern as guests of Mr. and Mrs. Hugh Pendexter. Grace was always a very interesting pupil in my French class as she was always so near the perfect mark. Her son, John, was in my English class four years ago. He and Roscoe McKay used to read the parts of Brutus and Cassius in the quarrel scene and they did it very well. When John said, "Away slight man," they enjoyed acting fierce as if they were about to grapple with each other.

Glenn Andrews was also the son of a former pupil of mine and I think Henry Cullinan's father also went to school to me. Glenn and Henry were great pals, brimful of fun, yet with an eye to their lessons and ready to do what I asked them. I read in the Advertiser that they are going on in their studies, one at Bates and the other at Kent's Hill and I wish them success in their new undertakings.

Mary Sanborn Stevens was a pupil of mine and her three children were also in my classes the second time I taught in Norway.

Mrs. Franis Holmes was one of the class of '77 and in the 90's her daughter, Helen, was in my classes. She was a librarian for several years before her marriage.

Houghton Kimball is another of the boys who is away at school. He was very fluent at reciting in the Senior History class. I was always glad to call on him because "I know his book." Houghton has the qualities that make friends.

Mr. and Mrs. Thaddeus Roberts were pupils of mine, also Mr. and Mrs. Orin Holman. I have not seen any of them for many years but I have the very kindest remembrance of them and know, wherever they are, they are a credit to the community where they live. I hope to see them sometime.

I still think there was a talented artist or sculptor in the school four years ago. One day a boy was sent home by the Principal and told to stay a week as a punishment. The next morning, we saw on the board, in the "big room," a large monument as white as chalk could make it. A black space was left on the front, where "Steen was then," "Secret to the memory of—departed this life," etc., "Someone" and written underneath, "He still lives."

A boy came into the morning exercises late. The Principal told him to go home and get his excuse. He started as if he was as if he lived across the street, rather jauntily in his manner, and the Principal was puzzled to know why the boys laughed when he started home. But the boy really lived six miles away, in North Norway.

It is a great pleasure to remember my pupils among whom are my good friends, Elsie Swan, who was a loved teacher in the schools for some years; Estelle Bell, who was her classmate and close companion; Lillian Bartlett, Carrie Tucker, Elsie Fawcett, Della Noyes, Honor Gurney, George Swain, Fred Brown, Mabel and Frank Brown, Victor Partridge, Eugene Della, and Lottie Stevens, Junitta Dismore, who I think is a grand daughter of a former pupil, Annie Parker, Lizzie Kilgore, Fredland Howe and very many others who come to mind at times. I can see the old school building and the recitation room and in memory the faces of those who came into my classes. Mrs. J. C. Harriman, Fred Rowe, Freda Schuler and others come to mind. When I visit Norway I forget that so many are no longer there. Whether passing along the shady street or riding by familiar places or at the lake where we had such good times. Boals Tavern was my home still recalls happy days.

Norway is the town most dear to me. I hope to see many of my friends there this summer.

A partial list of my beloved pupils who have passed away. (I use the girls' names as I knew them in school.) Ada, Ella and Annie Haskell, Mabel and Frank Jones, Florence Andrews, Dr. Geo. Andrews, Jessie Warren, Blanche Buck, Norman and Nettie Buck, Herbert Russell, Richard Clement, Nathan Denison, Frank True, Arthur French, Agnes Morton, Carrie Haydon, Ella Crooker, Chas. Frank Bartlett, Charles Cummings, George Cummings, Alice Horne, Will May Greenleaf, Carrie Cummings, Lena Minnow, Agnes Baker, Annie Hillyer, Warren Bartlett, Eugene Bartlett, Edward Will, Chas. Gammon, is true.

Of course from 1877 to 1925 is a long time and I have lost sight of many but when once their names are spoken, I remember, and I have nothing but pleasant remembrance of them all.

**HIRAM** Matthew Stanton is having his house painted. Lester Hammond has had his garage repaired and is doing a rushing business repairing cars. C. E. Harmon has a crew of men planting corn at the Durgin farm. Henry Haley is building an addition on his lunch room at Hiram Falls. R. N. Lowell was at Brownfield, Thursday.

James Sargent is clearing up his farm on the State road and it has improved the looks very much. Summer Durgin is working for Lewis Meers at Sebago, peeling pulp. J. M. Moore sold a cow and heifer, recently. Warren Bailey bought a pair of oxen, recently.

Mr. and Mrs. Freeman Durgin were callers of Mr. and Mrs. Merle Moore, Sunday, May 24. Mr. and Mrs. Merle Moore called at the Wardworth farm, recently.

Mr. and Mrs. Freeman Durgin had the misfortune to get run into by another car, Sunday night, May 24. Both cars were badly damaged. Mr. and Mrs. Durgin were both hurt some.

Albert Spring has bought a new car. Irving Rankin has the mumps.

**SUMNER** A Native of Sumner, Walter F. Robinson, assistant chief engineer for Boston Harbor under the United States Engineers, has been retired after forty years of Government service. He is a native of East Sumner, entered the United States Army and served through some of the Indian uprisings in the eighties. He was commissioned a captain by President Harrison.

As an engineer he has been attached to the Portland, Portsmouth and Boston offices serving at Boston for twenty-five years past. He is an authority on concrete construction. His residence is at 15 Cliff Street, Arlington Heights, Mass.

**EAST BROWNFIELD** Mr. and Mrs. Charles King of Arlington, Mass., are visiting their daughter, Mrs. E. C. Walker, for sister and husband, Mr. and Mrs. Charles Lund.

Winfield Day has returned home from Bridgeport to do his planting. He has been taking care of his brother, Guy, who is sick with rheumatism.

E. B. Dresser and wife from Denmark were Sunday visitors of Mr. and Mrs. Daniel Smith.

Mr. and Mrs. Harold Powers and daughters, Norma and Olive, from South Portland were recent visitors of their parents, Mr. and Mrs. William Moody.

Mr. and Mrs. Percival Rounds and daughter from Sanford Falls are visiting their parents, Mr. and Mrs. E. Rounds. A case of scarlet fever has broken out in town.

## Perfection in Cooking

SMELL the aroma of broiled steak—that mouth-watering smell of a juicy thick 'un done to a turn—seared to the minute—plumb-full of rich flavor. It's broiled, actually broiled, over the fast-as-gas flame, and heat—plenty of it—broiling heat, an exclusive feature of any Perfection Oil Cook Stove. And besides, it can cook any dish fit for a king. It bakes, roasts, toasts and broils. Ask any one of the 2,000,000 satisfied housewives who own one.

\*There's a wide range of Perfection models, including the fast-as-gas Superflex. Ask your dealer to demonstrate.

### EAST STONEHAM

Ruth Stearns was sick several days last week.

Olive Stearns was at home over Memorial.

Maybelle Barker and daughter, Vesta visited her mother, Lucie McAllister, last Thursday.

Raymond McAllister and C. L. Stearns are working for Gustave Hiem of Lovell Center.

Mr. and Mrs. Lester Jones of Washington, D. C., are stopping at their camp on Lake Virginia, for a few days.

Fernando McAllister swapped a cow and horse with Walter Lord for two cows.

Carlton Barker, Leon Stearns and Carroll Curtis went to Lovell, Saturday.

A large number from this place attended the Memorial services which were held at Hunt's Corner, Saturday.

Mr. and Mrs. Raymond McAllister and Mr. and Mrs. Archie Stearns and family visited their aunt, Mrs. Grant McAllister, in Fryeburg, Sunday.

Mr. and Mrs. McAllister visited relatives in Stoneham the past week.

A very heavy thunder shower passed over here with much rain and hail, Saturday.

Mr. and Mrs. Bernal McAllister visited at Fred Skinner's in Waterford, Saturday.

Mr. and Mrs. W. D. McAllister of Oxford were at their camp over the week end.

Little Junior Barker of Norway spent the day, Sunday, with his father, Carlton Barker.

Mr. and Mrs. Elwood Stearns and daughter, Virginia, of Auburn, visited at their uncle's, Charles Stearns', Friday night and Sunday.

Mr. and Mrs. Cecil Barker and son, Mr. and Mrs. Ernest Crouse and family and Mr. and Mrs. W. D. McAllister, all with cars, went on a picnic, Saturday.

Mr. and Mrs. L. A. Stearns and family went to South Paris, Sunday, to attend Oramel Pratt's father's funeral.

Mr. and Mrs. Albion L. Buck of Lancaster, N. H., formerly of Norway, and Mr. and Mrs. John Woodman were at their camp over the week end.

Mr. and Mrs. Will Decker of Waterford called on Nellie McAllister, Sunday.

**NORTHEAST LOVELL** Herbert Taylor sold a veal calf to Wilis Leonard of Waterford, Tuesday.

Mrs. Mattie Fox was home for Mrs. Eunice Milliken, Wednesday.

Agnes Fox and three sons have been visiting relatives in Norway the past week.

Mr. and Mrs. Bart Kendall and family and Mrs. Farrar went to Hunt's Corner to attend the Memorial exercises, Saturday.

Mrs. Eunice Milliken has been sick so a doctor was called Saturday, but is better at this writing.

Whitehouse and family and Mr. and Mrs. George Farrar of Bangor, Mr. and Mrs. Frank Farrar and Walter Whitehouse visited the cemetery at No. 4, Saturday.

Norman Kendall and Orman Bennett called on their grandmother, Mrs. Mary Kendall, Friday evening.

Callers at Elmer Andrews', Sunday, were Pottier Andrews, Mildred and Theodor Pottier of Fryeburg, Charlie Fitch, wife and son of Conway, N. H., Elmer Kendall and daughter Phila of Fryeburg, also Norman Kendall.

Mrs. Arthur Andrews of Lovell village is working for Mrs. Eunice Milliken.

Mr. and Mrs. Will Bennett and five children, Norman Kendall and Orman Bennett all took dinner at Bert Kendall's, Sunday.

Mr. and Mrs. Frank Farrar were callers at O. J. Rowe's, Sunday.

Mr. and Mrs. George Waterford of New York were at their summer home here last week.

**PIGEON HILL** Chas. Hiram, who is confined to his bed with an injured leg, was remembered generously with a well filled Maybasket last week, which contained many things other than candy.

Owen Brooks is suffering from a sprained ankle.

Mrs. Isabel Goldman and baby are at her parents, Mr. and Mrs. A. D. Thayer's, where King is pressing hay in Minot.

Tar is being put on the road over the hill.

Horace Holmes of Welchville painted and papered three rooms for C. K. Denning last week.

C. K. Denning has purchased a new pair of Clydesdale horses weighing 3200 pounds.

Mrs. Marion March and daughter, Margaret, were guests at the March farm, Saturday.

Chas. Jordan has bought an Ohio brooder and has about 200 fine chickens.

Mrs. E. C. Walker also has 500 chickens hatched at the Moray farm.

William Hall, assistant secretary at Bowdoin College, was at his uncle's, C. K. Denning's, Saturday.

Occid Russell, wife and daughter, spent Memorial day with his sister, Mrs. Julia Keene, at Cascade, N. H.

**SOUTH OTISFIELD** William Ames and Howard Ames called on their friends, Ralph Edwards and Wallace Edwards, Sunday.

Mr. Belieu, wife and daughter, has been visiting Fletcher Scribner and family.

Mrs. Esther Jilson has been entertaining 15 people from Boston.

Mrs. Lottie Edwards has been very sick.

### NORTH WATERFORD

Rev. J. A. Thurston was in Norway on business, Tuesday.

Rev. and Mrs. J. F. Thurston spent the week end holiday from Friday until Sunday morning with their children, Mr. and Mrs. Sherman E. Thurston, Eastman Hill, Lovell.

Mrs. Chas. Over and Chester Holt are delegates from the North Waterford Congregational church to the Union Association held at Harrison, June 3. Rev. J. F. Thurston is the preacher of the day.

**Rice Neighborhood** Geo. H. Rice went to Portland, Tuesday, to see his brother-in-law, Addison Millett.

Mrs. Everett Bradford and children, Wesley, Albert and Elton, from Locke Mills visited her parents, Mr. and Mrs. B. B. Hersey, Wednesday.

Elizabeth Shindlers has so far recovered from her recent operation as to be out of the hospital in Boston.

Chas. Hersey has a nice lot of tomato plants boxed and will peddle as soon as there are no frosts at night.

**FOR OVER 200 YEARS** hairem oil has been a world-wide remedy for kidney, liver and bladder disorders, rheumatism, lumbago and uric acid conditions.

**GOLD MEDAL HAIREM OIL CAPSULES** correct internal troubles, stimulate vital organs. Three sizes. All druggists. Insist on the original genuine GOLD MEDAL.

**Barred Sunlight** For the real mother and home-maker the kitchen, nursery and bathroom rank as the three most important rooms in the house, not only in sanitary arrangement but in beauty and comfort. White walls and woodwork should be kept a pure white in order to maintain most bright and cheerful surroundings. Barred Sunlight is the ideal interior white paint for this purpose. It is cheaper than enamel and much easier to apply, can be washed and won't need repainting for years. Contains no lead or varnish and dries with a hard, beautiful gloss.

**A Bright Cheerful Kitchen** For the real mother and home-maker the kitchen, nursery and bathroom rank as the three most important rooms in the house, not only in sanitary arrangement but in beauty and comfort. White walls and woodwork should be kept a pure white in order to maintain most bright and cheerful surroundings. Barred Sunlight is the ideal interior white paint for this purpose. It is cheaper than enamel and much easier to apply, can be washed and won't need repainting for years. Contains no lead or varnish and dries with a hard, beautiful gloss.

**The Most Simple, Lightest Draft Windrow Loader**

We want you to come in and see what we believe is the lightest draft windrow loader ever built—it is so light draft that one man can pull it, on level land, elevating a fair-sized windrow onto the wagon.

**JOHN DEERE**

**Dain System Windrow Loader**

The Dain System Loader is light draft because of its simple construction—only one cylinder or drum, and is mounted on the axle. There are no gears. The loading parts are slowly driven; there is no beating or thrashing of the hay; hay compression parts are automatically yielding, giving ample capacity; and the frame is mounted on the wheels in such a manner that the loader pulls easily under a heavy load.

The Dain System Windrow Loader is especially suitable for hilly land and for handling hay that has been air-cured in accordance with the Dain System. This loader will handle beans, alfalfa, clover and other kinds of hay gently without loss of leaves.

Don't forget that the Dain System Windrow Loader is on display at our store now.

**WALES & HAMBLIN CO.** BRIDGTON

**GET QUALITY AND SERVICE** **THIS STORE GIVES BOTH**

**AUTOMOBILE LEGAL ASSOCIATION** I represent the A. L. A., with its legal and touring departments, garage service and official magazine. If business is poor—Advertise MORE to get SOME. If business is good—Advertise SOME to get MORE.

The world's largest electric generating station will be in operation in Bangor by the Spring of 1926, according to an announcement yesterday by the New

The city's largest electric generating plant will be in operation in Manhattan by the spring of 1926, according to an announcement yesterday by the New York Public Service Company, giving details of its new power plant to be constructed at 125th Street and East River. The station will cost \$50,000,000, and will have a capacity of 700,000 kilowatts, or approximately 1,000,000 horse power, and will have a capacity 100,000 kilowatts greater than the projected power development at Niagara Falls, according to the announcement.

(N. Y. Times)

We call this the age of electricity, but it isn't. The age of electricity has not yet begun! All we have done yet is but preparatory to ushering in the electrical age."

Science, the great electrical wizard, prophesied the above before he died. The news, appearing at the top seems to prove that Science's prophecy is becoming a reality. Since there seems no end at all to the increased demand for electrical energy, the electrical company with the future is the company that has plenty of undeveloped water power. With the vision of the future of electricity, the founders of Central Maine Power Company have gradually acquired ap-

proximately 250,000 horsepower of undeveloped power.

When you invest in Central Maine Power Company 7 per cent. Preferred Stock you are investing in a company that has paid dividends 74 consecutive times, that is at present in a sound financial condition and that has wonderful prospects for the future.

Why don't you send in the coupon and let us mail you more details about the Company and its security?

## FARM STOCK

### FIELD BREEDING IS ALWAYS UNRELIABLE

It is the usual custom in eastern Canada to raise two litters of pigs from each sow each year. In order to take advantage of the warm seasons this practice necessitates early spring and early fall farrowing. The earlier in the spring the first litter can be handled the more leeway there is for getting the pigs weaned and the sows re-bred to farrow before cold weather.

Not many farms, however, are equipped to handle little pigs economically or satisfactorily before March, which brings the fall breeding season in November or early December. The question then arises as to the best and most satisfactory ways of handling the breeding herd during this period. Under most farm conditions one of two general systems is usually found to fit in with the other farm operations with a minimum requirement of extra time and labor.

The first and probably by far the most widely used is field breeding, where the sow is turned in with the sow herd on the day when the breeding season is to start, writes R. W. Crampton of MacDonald College in the Montreal Star. From then on until all have been bred, or in some cases until farrowing time approaches, the sow is a member of the sow herd, and the detail of the breeding left entirely with him.

About the only commendable thing about this system is its convenience, which in this case is simply a polite word for shiftlessness. Field breeding makes for unreliable records. Dates of breeding, checking of sows not settling promptly, the vigor and activity of the sow and the regulation of his services to best conservative strength and potency—all these factors are lost to the immediate touch and control of the breeder.

Only this last summer the author's attention was drawn to a case where a yearling sow ran all the season from May to September with three sows, and not until fall was it definitely known that none of the sows were in pig. The herdsman wasn't sure whether the sow had bred then or not, though he said he had seen him "nosing around" a good deal.

Which was to blame—the sow, the sows or the breeder? In other words, in this system of field breeding the breeder becomes a casual spectator—not a manager.

### Calves Should Be Given Liberal Feed of Grain

Unless the cows in the herd are exceptional milkers, calves intended for fat yearlings should be started on corn, kafir, milo, barley, wheat or oats, when from four to six weeks old. Nothing so stimulates the growth and early maturity as milk fresh from the dam, but in all cases calves should be fed liberally on grain for at least one month before weaning time.

Every effort should be made to get the calves through the weaning period without loss of their baby fat. The grain ration should be increased so as to permit as little change in their rate of growth and fattening as possible.

Some feeders build "creeps" in the pastures or lots so that the calves can get their grain without disturbance by the cows. Creeps consist of small pens with openings which permit only the calves to enter. These openings may have rollers on each side to prevent bruising the calves.

### Live Stock Hints

Did you ever wear a collar that didn't fit? Well, a horse or mule is worse off yet with a collar too large or too small.

Calves may be raised on a very small amount of milk, provided they are fed a liberal ration of grain and a leguminous hay.

Which did you bring home from the county fair—prize money or experience? Either one will help you to improve your exhibit for next year.

Protect your animals from the cold. This will make them more comfortable, and will save you feed.

Be sure the sheep have shelter from cold rains. Sheep save feed and makes the wool clip heavier.

It requires feed to carry sheep through the winter, if the best returns in wool and lambs are to be made. Begin feeding the ewes about lambing time and feed them until pasture is good.

It might be well to make arrangements to feed your sows at least fifty yards or more from their sleeping quarters and force them to take exercise in walking back and forth between feeding floor and hog house.

Breeding cattle especially need extra feed. Calves cannot be grown out without liberal feeding, and there is no demand for stunted, underweight breeding animals. Cornilage or hay with cottonseed meal or velvet beans will put them through in good shape.

THOUGHTLETS

Let one carry evil report habitually and by one's coming will put others to flight.

When money grows so fast that one doesn't know what to do with it, philanthropy becomes a pleasant pastime.

An alarm clock will put you to sleep in case you ought to get up, but if it makes a difference whether you get up never a wink more will you get.

Ernest Boynton spent Sunday at the old home at Oxford Station.

## Oil is Power

Most motorists think of lubricating oil merely as something to reduce friction between moving metal parts. While this is a very necessary thing, the principal function of a good lubricating oil is to preserve and conserve power by sealing, as completely as possible, the piston head union in the combustion chamber.

A poor lubricating oil cannot do this successfully or completely. The tremendous heat at which motors operate will break down and thin down oils of insufficient body. The result is loss of power and excessive crankcase dilution.

Socony Motor Oil is refined to meet the requirements of all types of motors now on the market. Highly heat-resisting, it yet has sufficient viscosity to effect an efficient leak-proof seal around the piston head. It consumes cleanly.

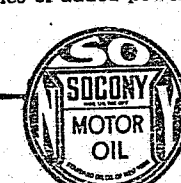

Insist upon Socony Motor Oil; resist cheap and spurious imitations.

\*Always consult the reliable Socony Lubrication Chart. It tells exactly—summer or winter—the proper grade of Socony for your engine.

Remember that SOCONY is "Standard"

### Chassis Lubrication

Do not fail to lubricate particularly your chassis with Socony Gear Oil or Socony Gear Compound. It gives miles of added power.
